

Recommendation Letter

Anna V. Anosova
Senior Lecturer, Faculty of Economic Sciences
HSE University

April 3, 2025

To the Admissions Committee,

I am writing to offer my full support for Sanzhar Tokkozhin's application to the Master's Program. Sanzhar is currently a 4th-year student in the Bachelor's Program in Business Informatics at HSE University, and I had the pleasure of teaching him in the *Microeconomics* course.

Throughout the course, Sanzhar demonstrated exceptional aptitude in grasping key microeconomic concepts and applying them to real-world scenarios. His understanding of topics such as market equilibrium, demand and supply dynamics, elasticity, and the theory of firms with monopoly power was particularly impressive. He was able to analyze and interpret complex economic models and translate theoretical concepts into practical solutions with remarkable clarity and precision.

Sanzhar consistently displayed a deep curiosity about how microeconomic principles influence business decisions and market behavior. His ability to draw connections between microeconomic theory and business informatics was particularly valuable in discussions, where he often provided unique insights into the implications of market regulation, resource allocation, and the behavior of firms in competitive and monopolistic markets. In addition to his academic excellence, Sanzhar actively participated in class, demonstrating excellent problem-solving skills and a strong work ethic. He contributed to the collective learning environment by helping his peers understand difficult material and applying advanced economic concepts to solve practical problems. His ability to work collaboratively with his classmates further speaks to his team-oriented approach and strong interpersonal communication skills.

I am confident that Sanzhar's ability to think critically and approach complex problems from different perspectives will make him a valuable asset to any graduate program. His performance in Microeconomics, coupled with his overall academic record, demonstrates his readiness to excel in advanced studies. I strongly recommend Sanzhar Tokkozhin for admission to your Master's Program and believe that he will continue to develop into a highly successful and capable professional.

Faithfully yours,
Anna V. Anosova
